Allowable Subject Matter

1. Claims 24-52 are allowed.
2. The following is an examiner's statement of reasons for allowance: In response to remarks and claim amendments made in Applicant's Amendment filed on 01/11/2007, Applicant's argument is persuasive. Claim 24 states the limitation "a printed circuit board having a circuit connected to said at least one plug element, said printed circuit board having an external portion protruding through an opening in the electronic appliance housing" and "a first capacitor arranged on said printed circuit board and connected between said at least one plug element and a potential of electronic appliance housing." These limitations in conjunction with other claimed limitation as disclosed in the claim 24, was neither found to be disclosed, nor suggested in the prior art. Claims 25-52 depend on the claim 24. Amended claims have been considered and upon conclusion of a comprehensive search of the prior art, the office indicates that the claims, as amended, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
